E2i

NO SILL INTERNAL FOLDING HARDWARE SYSTEM

E2i specifications

max opening	8m
max panel weight	40kg
max panel height	3000mm
max panel width	1000mm*
min panel thickness	35mm
max number of panels	8 (4 each direction)

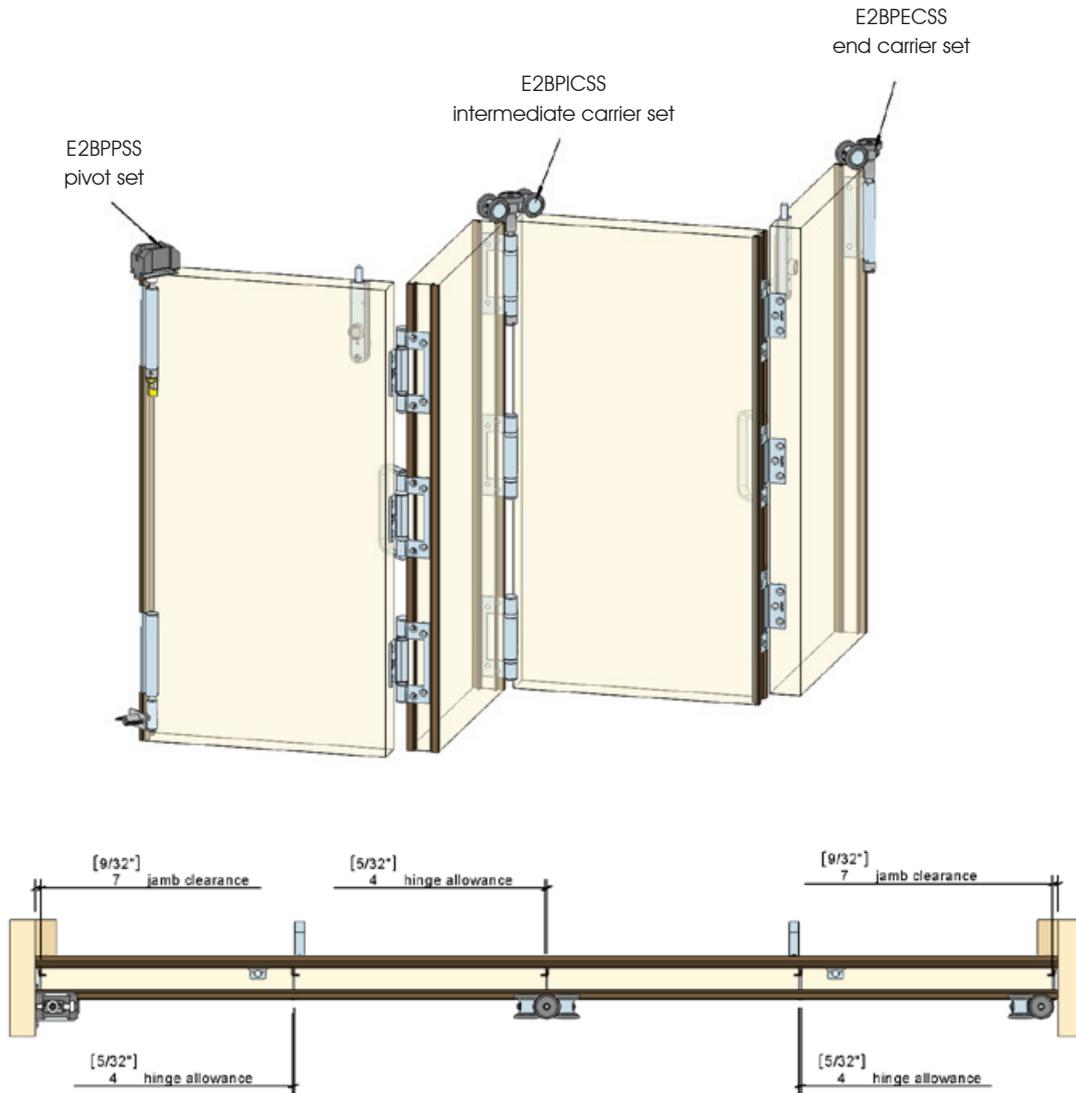

* 3 and 4 panel systems may require a specific operating sequence at the max panel width.

The latest innovation from Centor Architectural, E2i internal bifold system without a bottom sill is based on Centor's standard E2 hardware system and uses Centor's proven bifold window technology. For internal applications only, it is designed for seamless transitions between rooms and internal spaces. All the benefits of the versatile E2 system are preserved.

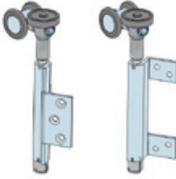

E2i features include:

- Centor exclusive laterally adjustable bottom pivot
- All stainless steel construction
- No need for costly tile and concrete cutting
- Complete horizontal and vertical adjustment
